### Good Money Habits Tracking Form

Use this form to keep track of every time you earn money, pay your tithes and put money in savings. If you need more copies of this form you can print it off from the website. Once filled out then complete the personal breakthrough form.

1. Write the name of the months in the month boxes, (January, February etc.) For Month 1 put the name of the month you are starting to do this.	4. Every time you put money into your savings write the amount in the "Money Saved" box for that month.
2. Every time you earn money write the amount in the "Money Earned" box for that month.	5. After three months, add up all the amounts in each row.
3. Every time you pay tithes to church write the amount in the "Tithes Paid" box for that month.	6. Make sure your tithes paid are 10% of your money earned. And make sure you have put something into savings every month for three months in a row.

Remember a tithe is 10% of what you earn. So you give 10¢ for every \$1.00 you earn.

Write down the amount in the correct box every time you do one of these:	Month 1	Month 2	Month 3	Totals (add the boxes across)
Money earned				
Tithes paid				
Money saved				

To make sure you have given 10% of the amount you have earned to the church then multiply your total money earned \$\_\_\_\_\_ x .10 = \$\_\_\_\_\_.

For example, \$60.00 x .10 = \$6.00.
